Speedplay Syzr pedals

With the cyclo-cross season upon us, getting on and off the bike quickly is as important as staying in the saddle. Speedplay's new Syzr pedals reverse the pedal release, so that there's a more stable platform to pull back when pedalling, and the cleat incorporates up to 10° of adjustable non-centring float.

www.i-ride.co.uk £189.99, www.speedplay.com \$199
